The Appraiser

JANUARY, 1966 • VOLUME 22—NO. 1

A MONTHLY ROUNDUP OF APPRAISAL NEWS AND VIEWS

In addition to THE APPRAISAL JOURNAL, the American Institute of Real Estate Appraisers publishes THE APPRAISER, a monthly eight-page letter-size "Roundup of Appraisal News and Views."

In each issue of THE APPRAISER, the President of the Institute writes an informed commentary on various matters of concern to the professional valuation expert or his clients. Its news space is devoted to a wide range of analytical reports of current events affecting or of interest to the profession in the fields of appraising, real estate and land economics, urban redevelopment, etc.

A statistical section lists current yields for 14 classifications of stocks and bonds, with comparison yields for the previous two years, one year, and four months. Usually in alternate months this section also contains series on building costs, the current value of the dollar in terms of both 1938–1939 and 1947–1949 purchasing power, real estate investments of life insurance companies, consumer credit outstanding, hotel business data, housing vacancies by regions, etc.

The subscription for ten issues of THE APPRAISER (none is issued in July or August) is $7.50 a year ($4.00 for students enrolled in real estate courses at accredited colleges or universities). Readers of THE APPRAISAL JOURNAL may obtain a current issue free on request.
